## GROSS SALES OF DAIRYMEN'S LEAGUE INCREASE \$20,000,000 IN PAST YEAR

**Pooled Milk in Billions of Pounds and Net Return to Producer Was \$1.83, Says Annual Report—President Slocum Tells of Organization Work.**

By Telegram to The Freeman.  
Utica, N. Y., June 21.—The accomplishments of the Dairymen's League Cooperative Association, Inc., during the second year's operation of its plan for the orderly marketing of milk and milk products were placed on the record at the annual meeting of the association in the state armory, this city, today. This record, in the opinion of the officers and members of the board of directors, is one of the most remarkable in the history of big business enterprises. It is a story of things successfully done that has amazed the commercial, industrial and financial world.

The gross sales during the year amounted to \$82,130,902.17, as compared with \$61,943,832.94 during the preceding year, an increase of \$20,187,069.23.

The pooled milk handled in plants operated by dealers and in plants operated by the association amounted to 3,358,273,358 pounds, as compared with 2,565,476,805 pounds during the preceding year, an increase of 792,796,553 pounds. The association doubled the amount of milk handled in its own plants.

The average net return to producers was at the rate of \$1.83 per 100 pounds of 3 per cent milk in the 201-210 milk freight zone. This includes \$1.376 per 100 pounds in certificates of indebtedness.

The session was a great business convention of farmers who believe they are on the way to a solution of the producer's and consumer's problems through the agency of their marketing organization.

President George W. Slocum, of Milton, Pa., called the morning session to order at 10 o'clock (standard time). The afternoon session began at 1:15 o'clock.

The business of the day was transacted by delegates from 950 local, each local having an accredited representative chosen by the members, and each delegate having authority to cast one vote on any and all measures that came up. Reduced fares were offered by the railroads and many enthusiastic poolers journeyed to Utica to get first hand information of the year's operation.

The seating capacity of the armory is placed at 1,800. The principal addresses of the day were made by John D. Miller, vice-president and general counsel of the association and president of National Milk Producers' Federation, and John M. Kelly, vice-president of the Holstein-Friesian Association of America.

In his annual report, President Slocum said the greatest change that has taken place in the association during the past year has been in the organization of departments. There are now ten departments, the heads of which have been selected with the greatest care, all of whom are directly responsible for the operations under them. These departments are: Production, sales and advertising, secretary's department, banking, accounting, engineering, traffic, legal, purchasing and office manager.

"You will immediately see," the president said, "that instead of playing your chances on one man, you are running your business directly with the assistance and technical knowledge of many specialists. So far as we have been able to judge the system is working out most satisfactorily and is most sensitive to farmer control which always has been our greatest aim."

Mr. Slocum said a decidedly progressive move had been made in the adoption of a fixed marketing program. First, he explained, came development and expansion of the fluid milk business, and second, the development and expansion of the association's evaporated milk business.

"During the past year," he continued, "our plants have been brought up to the highest point of efficiency in production and sanitation with greatly increased capacity. Our policy is to turn out the best evaporated milk in the world."

"We have selected these two lines of production in which your association has a distinct competitive advantage: fluid milk first and evaporated milk second. This does not mean that future changes in marketing conditions may not lead us into other endeavors. For this coming year, however, our whole effort is being thrown into selling these two leading products."

"In having these great evaporating plants our farmers are kept constantly under the board of health supervision and a great volume of class 1 milk is available for shipment at a moment's notice, and at times when it is not needed for fluid consumption we are diverting this high grade product, not into butter and cheese, but into the much more profitable by-product, evaporated milk."

Discussing the fluid milk situation, Mr. Slocum said, "The New York problem, however, remains to be solved and we believe the league must become a larger factor in the direct to consumer business before it will have a sufficiently great influence on the Metropolitan market to increase the farmers' net return. Your officers and directors believe

## STILL EXPLODES; 10 BURN TO DEATH

By Telegram to The Freeman.  
Chicago, June 21.—Ten men, women and children are known to have been burned to death, several others are missing and are believed to have perished or fifteen or more others were injured by leaping from flaming windows early today when a moon-shine still exploded and sent fire racing through a tenement house here.

## HARDING'S TRAIN SPEEDING WEST

By Telegram to The Freeman.  
Aboard President Harding's special train, enroute to St. Louis, June 21.—With Washington and its worries behind him and fifteen thousand miles of open road ahead, President Harding prepared today to carry his international court fight "to the people."

Undismayed by the array of strength against him in the Senate, estimated by Senator James E. Watson, Republican of Ind., to now aggregate nearly one third of its membership, the president will open his long speaking tour in St. Louis tonight with a vigorous re-affirmation of his faith in the court, and his determination to put America into it if possible.

## VAN STEENBURGH HURT IN COLLISION

Lamson W. Van Steenburgh is confined to his home at 117 Lucas avenue with a dislocated shoulder and nursing other bruises received Tuesday evening in an automobile collision at Westkill, near the post office. Mr. Van Steenburgh was on his way from his boarding house to Shaft 5, he being of the engineering department of the New York board of water supply, when a Hudson car owned by a man named Steenburgh, who lives in the vicinity of the accident, ran into his auto. Both cars were more or less damaged but Mr. Van Steenburgh was the only one injured. Wednesday Dr. H. P. Van Wagenen took X-ray photos of Mr. Van Steenburgh and found besides a number of bad bruises that one of the shoulders had been dislocated.

## ETNA RESUMES VIOLENT ACTIVITY

By Telegram to The Freeman.  
London, June 21.—The eruption of Mount Etna has risen to all its former fury, dashing the hope that the volcano's force has been spent, said a Central News dispatch from Rome at noon.

Etna's crater is furiously belching cinders and ashes and lava is again pouring out in a heavy stream, the dispatch added. Engineers are working desperately to protect Linguaglossa and Castiglione from destruction. Deep trenches are being dug to deflect the molten steam.

## RED CROSS OFFERS AID AT ETNA

By Telegram to The Freeman.  
Washington, June 21.—The American Red Cross today offered through the state department full services to the Italian government in aiding the people in the towns stricken by the eruption of Mount Etna.

Not only will the Red Cross furnish money and supplies, but will send doctors, nurses and relief workers to Italy, if that is necessary the cable declared.

## Detroit Heat-Stricken.

By Telegram to The Freeman.  
Detroit, Mich., June 21.—Six persons, seeking relief from severe heat, were drowned in Michigan rivers and lakes yesterday. Scores of heat prostrations were reported. The heat wave reached a peak of 90.2 yesterday, the hottest June 20th on record.

## Saugerties Car Stolen.

It was reported to the police Wednesday afternoon that a Ford sedan owned by Miss Sinsapough of Washington avenue, Saugerties, had been stolen from in front of the old First Dutch Church on Main street, where the owner had parked it. The license number was 635-029 N. Y.

## Break in Heat Wave Predicted For Tonight; Usually Torrid Arizona Reported Frost

By Telegram to The Freeman.  
Washington, June 21.—Relief from the intense heat spreading over most of the country east of the Mississippi river is promised for this evening by the United States weather bureau.

Forecasters said today that cool winds from the region north of the Great Lakes would bring thermometers down during the late afternoon, while local showers were also promised for some parts of the middle west.

The highest temperature this morning was 86 degrees at Boston and Philadelphia. Yesterday the highest temperature was 98 at Philadelphia and Harrisburg, Pa., the lowest—23 degrees—was reported from Flagstaff, Arizona.

## EIGHT DIE FROM HEAT IN N. Y.

By Telegram to The Freeman.  
New York, June 21.—Killing heat continued to grip New York today.

The mercury, which reached an official 95 yesterday—a figure which means 100 or more in the narrow downtown canyons and the packed lanes of the lower East Side—would again mount to record marks today. Weather Forecaster Starr predicted. Eight are dead. Two scores are prostrated. Thousands spent the night in the city's parks and squares, ordered kept open by Mayor John P. Hylan. Ten thousand others slept all night on Coney Island beach, while the other beaches and slopes along the Hudson were literally black with sweltering humanity.

The 95 figure of yesterday came within two degrees of breaking New heat records in New York—a 97 being registered on June 6, 1899.

## WALL STREET HEARS RUMORS

Of Other Firms in Difficulties—Effort Being Made to Prevent Further Loss of Prestige—Stock Prices Unchanged.

By Telegram to The Freeman.  
New York, June 21.—Wall street rumbled with rumors today that one or more brokerage firms are in trouble, following the failure yesterday of Zimmermann & Forsythe, the fourth largest international banking house in the United States. It is understood, however, that assistance has been offered to save some of the firms and incidentally save the prestige of the New York Stock Exchange.

Zimmermann & Forsythe is the fifth largest brokerage firm to go to the wall in less than a month. Receiver Gordon Auchincloss, son-in-law of Col. E. M. House, is having a survey made of the books to ascertain the truth of the claim that the firm has \$9,000,000 assets against \$7,500,000 liabilities.

Deputy State Attorney General John J. Dwyer plans to ask the supreme court to act under the new Martin law by issuing injunctions against brokers under suspicion. Ever since the Martin law was passed the attorney general's office has been quietly gathering evidence in Wall street. Under this law the state may suspend brokers by injunction where fraudulent practices are disclosed.

The series of failures has had practically no effect upon stock prices.

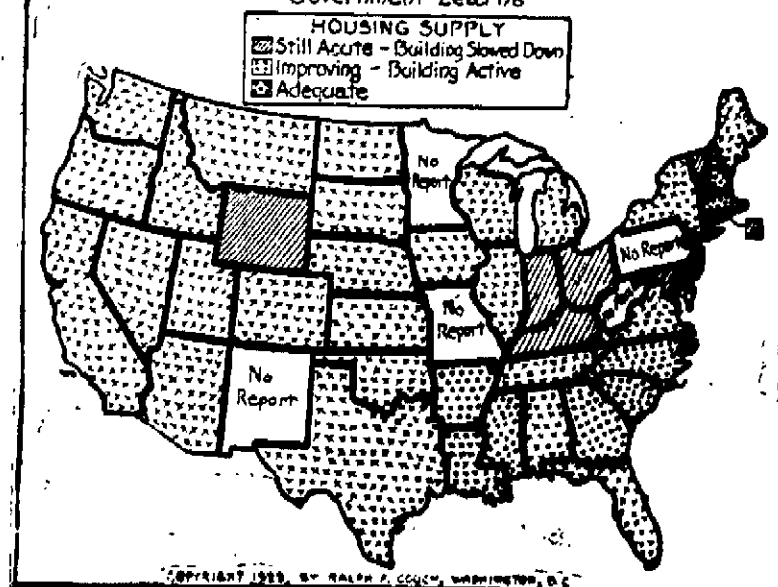

## CHILD SOMEWHERE IN U. S. IN FREIGHT CAR.

By Telegram to The Freeman.  
New York, June 21.—Frantic search by police of New York and half a dozen mid-western cities to locate 10 year old Stanley Farba of Brooklyn, proved fruitless today.

The boy was locked in a freight car Monday. Shortly after the car was "deadheaded" west—where railroad company heads do not know. The child has been four days without food or water.

## BUSINESS DAY 64 DAY as the Government sees it

HOUSING SHORTAGE STILL ACUTE IN NINE STATES  
Improvement Reported In 25 States Where Construction Is Very Active

## TWO PROSTRATED HERE WEDNESDAY

Intense Heat Overcomes a Shipyard Worker and a Blacksmith—Warm Wave Still Unbroken and City Sweltered Under Extreme Heat Today.

Charles Brower while employed on the W. F. & R. shipyard on the Strand in Ponchockle Wednesday afternoon was overcome by the extreme heat and was removed to the Benedictine Hospital in the city ambulance. Another heat prostration reported Wednesday afternoon was that of John Haley of No. 560 Broadway, employed at Dunlap's blacksmith shop on Wall street. Mr. Haley was removed to his home.

It was thought that the heat wave would be broken by rain during the night but this morning gave every promise of being as hot, if not hotter, than Wednesday when thermometers registered 93 degrees at noon. At 10 o'clock this morning thermometers were registering 90 degrees, and as the sun rose higher the temperature grew warmer.

Wednesday afternoon and evening many residents went bathing at Kingston Point. Those who had automobiles went out for a spin to cool off during the evening.

Berry pickers and other farm workers suspended work in many places Wednesday because it was too hot.

## LEVIATHAN SAILS A PLACID SEA

Passengers are Nine-Tenths Dry and Machinery is Working Smoothly Off Carolinas.

By Telegram to The Freeman.  
Aboard American steamship Leviathan, June 21.—(By wireless.)

Plowing through a placid sea at a 24 knot clip, the Leviathan, world's greatest liner, was off the Carolinas today on her trip to West Indian waters with a large party of guests on board. The liner moved without a vibration and none of the guests were sick. The weather is clear and cool, but there is usually some fog at night.

The guests are given life drill on deck in case of accident. Many of them, who have been in southern waters before, take great delight in watching the flying fish at play.

There is virtually no liquor among the guests, the correspondents estimating them at "nine tenths" dry.

Officers of the ship are delighted over the smoothness with which the machinery is working, this being the first trial voyage since the liner was reconditioned. Tests are being made to try out the various parts of the ship's mechanism.

Captain Herbert Hartley said he was delighted with the way things are going.

## BEICHERT HEADS VALLEY FIREMEN

Alderman of Second Ward Was Elected Head of H. V. F. A. at Beacon Convention Wednesday—Big Parade Today.

Alderman J. Philip Beichert of this city was elected president of the Hudson Valley Volunteer Firemen's Association at the annual convention in Beacon Wednesday. The convention closed today with the big firemen's parade this afternoon. Andrew J. Murphy of this city was re-elected treasurer.

As forecast in The Freeman several weeks ago, local men were elected without opposition.

The other officers elected were: First vice president, James J. Moyer of Hudson; second vice president, Joseph A. Daughton of Poughkeepsie; secretary, Charles W. Noll of Poughkeepsie, who was re-elected. W. H. Frank of Poughkeepsie was elected a director for a term of five years.

The invitation extended by Hudson to hold the 1924 convention there was accepted.

This morning Excelsior Hose Company headed by a band, Mayor Walter P. Crane and Fire Chief Chipp, paraded down Broadway to the Rhinebeck ferry on the way to Beacon to participate in the big parade this afternoon. The Excelsiors in their red shirts presented a striking appearance. They were accompanied by the big auto pumper of the Central Fire Station which will also be shown in the parade.

It was expected that there would be about fifty fire companies in the line of march. The Excelsiors were the only company from Kingston to take part in the parade.

Whether it was the holding of the firemen's convention that caused it is not known but Beacon was visited Wednesday by over twenty-five federal agents who raided a number of alleged saloons and made three arrests. Beacon residents were highly incensed over the raid.

## Compensation Hearing.

J. A. McKenna, referee, is holding at the supervisors' room in the court house today, hearings in compensation claims, with a large calendar of accident cases. He will also hold a hearing on Friday.

## A Rubbish Fire.

A rubbish fire at 15 Ann street caused a still alarm to be sent into the fire department this afternoon.

## HASBROUCK BRIDGE CLAIM PRESENTED; LAND VALUE EXPERTS NOT FAR APART

**William J. Turck Says Ground Taken For Approach Was Worth \$300, Hiltibrant \$1,000, Bogart \$500—Land Never Used as Detour to Ferry Slip.**

## BURNS VALUES LAND AT \$1,000

The commission in condemnation proceedings for the lands taken from the Hasbrouck estate at Sleighsburg for the approach to the Rondout Creek Bridge met again this morning for a brief session. Arthur A. Burns, of the Shattemuck Realty Company, was sworn and testified to the value of the property before and after the taking of the land for the bridge approach. Mr. Burns, after viewing the property placed a valuation before the taking of \$15,000 and after of \$14,000.

In a letter received from Frank L. Frost, general manager of the Albany Association for the Blind, he is very much pleased with result of sale and the generous response to fund for Mrs. Houghtaling and he wishes to let it be known that the Association appreciate the patronage which Kingston gave to the sale, and all those who gave service in connection with the sale.

## A Rubbish Fire.

A rubbish fire at 15 Ann street caused a still alarm to be sent into the fire department this afternoon.

Further testimony was taken Wednesday by the commission appointed to hear testimony in the Sleighsburg ferry property claim which is brought by the trustees of the Hasbrouck estate by reason of the taking of certain lands of the estate for the purposes of a right of way over the property when the Rondout Creek Bridge was built.

A hearing was held some time ago at which Judge G. D. B. Hasbrouck and others gave a large amount of testimony in regard to the value of the property before and after the taking of the land for the bridge approach. The contention was that the lands taken were a part of the old Sleighsburg ferry business and that the lands taken had been held so that in case the road was ever closed the ferry owners could divert traffic over the lands owned by the estate and thus keep traffic and business moving to the ferry. As a part of the ferry business the owners claim that it was very valuable, more so than if it had been used for farm purposes and seek to receive damages upon this basis.

At the hearing Wednesday afternoon the examination for the claimants was conducted by Howard Chipp and by John W. Eckert for the county. Frank Boice was called by Mr. Chipp and gave testimony in regard to having gone over to Sleighsburg and driven a car from a point near the Hasbrouck mansion up over the hill to a point near the hill of the new road from the bridge. He testified that the grade was steep but that it could be negotiated by an automobile. Judge Hasbrouck also testified to having made the trip which was over the old path or road which had been used for farm purposes in years gone by. The road is the one which claimants contend could have been used in case of emergency although so far as is known it never has been used.

At this point claimants discontinued their case but Mr. Chipp asked the right to call further witnesses at a later time if it was deemed necessary and explained that it was possible that they might seek to prove another measure of damages.

County superintendent of Highways James F. Loughran was the first witness called by Mr. Eckert and he explained at great length maps of the location. So far as Mr. Loughran knew the Hasbrouck farm had never been used as a means of reaching the ferry and when the road from the ferry south had been improved several years ago a detour had been posted and at that time it was not necessary to use the Hasbrouck lands as a means of reaching the ferry. From the top of the Sleighsburg hill to the ferry the detour had been on the opposite side of the road and over certain streets of the village.

Elva H. Bogart was qualified as an expert on land values and was then asked by Mr. Eckert to place a value on the Hasbrouck estate before the taking of the land for the bridge. He gave his figure as \$14,500. After the taking he gave a value of \$14,000. This he explained did not take in consideration the ferry landing and slips but did take in consideration the house and buildings on the place. The lands taken he explained were of a rocky nature to the west and to the east the lands were swampy where the fill had been made.

John Hiltibrant placed a valuation of \$18,000 on the property before the taking and \$17,000 after. Mr. Hiltibrant who has travelled the road to and from the ferry for years on his way to the shipyard at South Rondout said he never knew of the Hasbrouck lands to the west being used as a detour.

William J. Turck placed the value before the taking at \$15,800 and after at \$13,500. He explained that he considered the lands taken as almost valueless on account of the nature of the land.

The opinion was that the property has probably been increased in value on account of the bridge and the consequent rise in value of property across the bridge. On account of the low swampy condition of the land at the point where the fill was made for the road one witness testified that the land at that point would have been practically of no value at building lots unless money was expended and the lots could be drained.

At this point testimony was suspended until this morning at 10 o'clock when the case was resumed.

## FLUSHER AND AUTO RIDES MADE HEAT ENDURABLE

The roads leading from Kingston Wednesday evening were crowded with city people who motored out into the country to escape the heat which was almost unbearable in town. With but little breeze to cool off the heated streets and homes that night was the hottest of the season and the parks, playgrounds and Kingston Point Beach were popular places for older folks as well as the children. During the evening the city flusher was busy washing down the streets and this relieved the intense heat in many sections as well as freshened the atmosphere.

NEW PERFECTION  
Oil Cook Stoves and Ovens

KAPLAN FURNITURE CO.

14 E. STRAND.

DOWNTOWN.

## Dependable

One of the things our many customers like about the NEW PERFECTION Oil Cook Stoves with Blue Chimney burners is that they require no watching, once the flame is set.

These popular oil stoves give instant cooking heat without soot or odor. Convenient and economical.

Let us demonstrate. Sizes range from one to five burners.

## OUR DAILY PATTERN.

### A Dainty House Dress.

4332. This model has new and attractive features. It is finished in "slip on" style, and is provided with shoulder and underarm closing. Red and white figured percale with red binding on bertha, cuffs and pocket facings of white linen would be attractive for this style. Gingham and linen or crepe in two colors would also be pleasing. The width of the skirt at the foot is 2 1/2 yards.

The pattern is cut in 7 sizes: 34, 36, 38, 40, 42, 44 and 46 inches bust measure. A 38 inch size requires 5 1/2 yards of 36 inch material. For bertha, cuff and pocket facings of contrasting material 1/2 yard is required.

A pattern of this illustration mailed to any address on receipt of 12 cents in coin or stamps by The Freeman Pattern Department, Room

## Are You Ready for Summer?

No need to worry about hot hours in the kitchen when you have a NEW PERFECTION oil range with SUPERFEX burners. This is the only oil stove made with the clean, instant, intense heat of gas. Sizes in stock from two to five burners. Let us demonstrate.

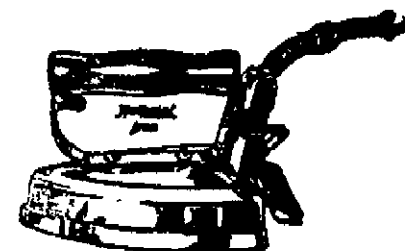

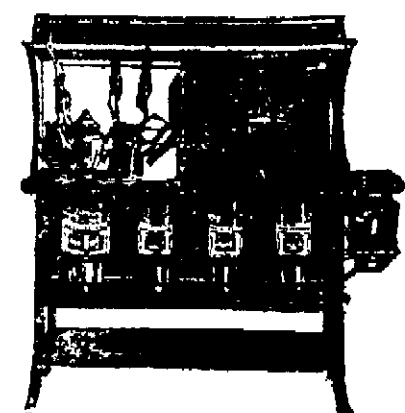

## Iron—and be Cool

An electric iron is a great help during these days of hot weather and heavy laundry. Let us show you our supply of standard makes; also electric fans and other appliances.

Watch our windows for hot weather specials—seasonable articles at a saving every Monday.

**If Ruptured**  
**Try This Free**

Apply It to Any Rupture, Old or Recent, Large or Small and See for Yourself That Has Convinced Thousands.

**Sent Free to Prove This**

Anyone ruptured, man, woman or child, should write at once to W. S. Rice, 707½ Main Street, Adams, N. Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together so that the opening closes naturally and the need of a support or truss or appliance is then done away with. Don't bother to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance? Why run the risk of gangrene and such dangers from a small and innocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt nor prevent them from getting around. Write at once for the free trial, as it is certainly a wonderful thing and has aided in the cure of ruptures that were as big as a man's two fists and that wrote at once, using the coupon below.

Don't Hide Them With a Veil; Remove Them With Othine—  
**Double Strength**

This preparation for the treatment of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.  
Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.  
Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

## K. H. S. HONOR ROLL LARGER

It might be true in some cases that ambition goes when heat comes, but there are exceptions. It appears. One of these exceptions must be Kingston High School, for, judging by the size of the honor roll, there were as many eager students for the last six weeks as there were for the first. The list seems even longer, and is greatly welcomed by some of the students, for through good marks on this report card several are now sitting pretty for graduation of their average.

Those who did honor work during the last six weeks are as follows, the grades being taken from the recent report cards of June 16, 1923:

All marks 95% and above classified as highest honor students.

Why should not three cigarettes be lighted from one match? This superstition is an oriental one. In parts of the Near East three wax tapers are placed by a deathbed, and three lights are held to be a sign of death.

# Daddy's Evening Fairy Tale

MUD PIES

The King of the Clouds was singing and this was his song:

The sky is very blue,  
The sun shines very hard  
Day after day for you,  
Showing most high regard—  
Except when it is raining!

You wear your best hat out,  
And wear your best frock, too.  
You must look smart, without a doubt,  
So this you certainly will do—  
Except when it is raining.

"A fine song," said the Sky.  
"Well," said the King of the Clouds,  
"I am pleased to have kind words from  
so high-up an authority as you are!"  
"I'll tell you what I'm thinking," said  
the sky. "I'm thinking that you are  
helping to get ready for a mud pie  
party."

"Not that you'll make mud pies your-  
self; but haven't you been thinking  
that it would be nice for the children  
to have a good chance at mud pie  
making?"

"The very thing I've been thinking,"  
said the King of the Clouds. "Yes,  
I'm turning the dirt into mud so this  
can be done."

"Shall I sing you my song about it,  
too?"

"By all means," said the Sky po-  
litlely.

So the King of the Clouds sang his  
mud pie song, and this was the song:

A skipping rope is lots of fun.  
Children in and out can run,  
And they count the times they skip.  
A skipping rope is lots of fun.

But mud pies are the best of all.  
Mud pies big and mud pies small,  
So make them big and round and juicy!  
Oh, to make mud pies is best of all.

And I must help them make mud pies.  
Though I wear a king's disguise,  
I'm an excellent mud pie cook.  
Oh, I can help them make mud pie!

The dirt is very lazy, you see,  
Just as lazy as it can be.  
I have to make the dirt into mud.  
For the dirt is, oh, so lazy, you see!

"That is the end of my song," said  
the King of the Clouds.

"I think it is a nice song," said the  
Sky. "I suppose the people are talk-  
ing of the weather now. Just as you  
said, though, they have day after day  
of sunny weather—except when it is  
raining."

"I heard that the Breeze Brothers  
were talking of the weather yesterday.  
They were blowing softly and they  
were saying how Old Man Weather  
said he would always help make con-  
versation for people."

"The Breeze Brothers said they  
helped Old Man Weather and so they,  
too, were spoken about, and they said  
they liked it, for it was nice to hear

"What Fine Mud Pies."

The Breezes spoken about. They said  
they wouldn't like it if they were  
never mentioned.

"And they said they didn't believe  
Old Man Weather would like it if he  
were never mentioned."

"I must work harder now," said the  
King of the Clouds. "I must see that  
my children are working, too. I've  
had a nice chat with you, but today  
is to be a real mud pie day."

"Just as people have a day for bak-  
ing so I have chosen today as mud  
pie day!"

And the King of the Clouds made  
such beautiful mud and later on the  
rain stopped and the children went  
out and, oh, what fine mud pies they  
did make!

They wore their rubbers, so they  
would not get their feet wet, and they  
had the most wonderful of times.

And the King of the Clouds chuckled  
as he said to the Sky:

"I've never actually been called a  
cook, but as First Assistant to Mud  
Pie Making I'm really a success!"  
And the Sky agreed.

## All Know That.

The teacher was trying to impress  
upon her pupils the importance of do-  
ing right at all times, and to bring  
out the answer "Bad Habits" she in-  
quired:

"What is it that we find so easy to  
get into and so hard to get out of?"  
There was silence for a moment and  
then one little fellow answered,  
"Bad."

## A Quick Return.

A little Brookline girl on returning  
from school said: "Oh, mamma, Mrs.  
Brown's baby is dead."

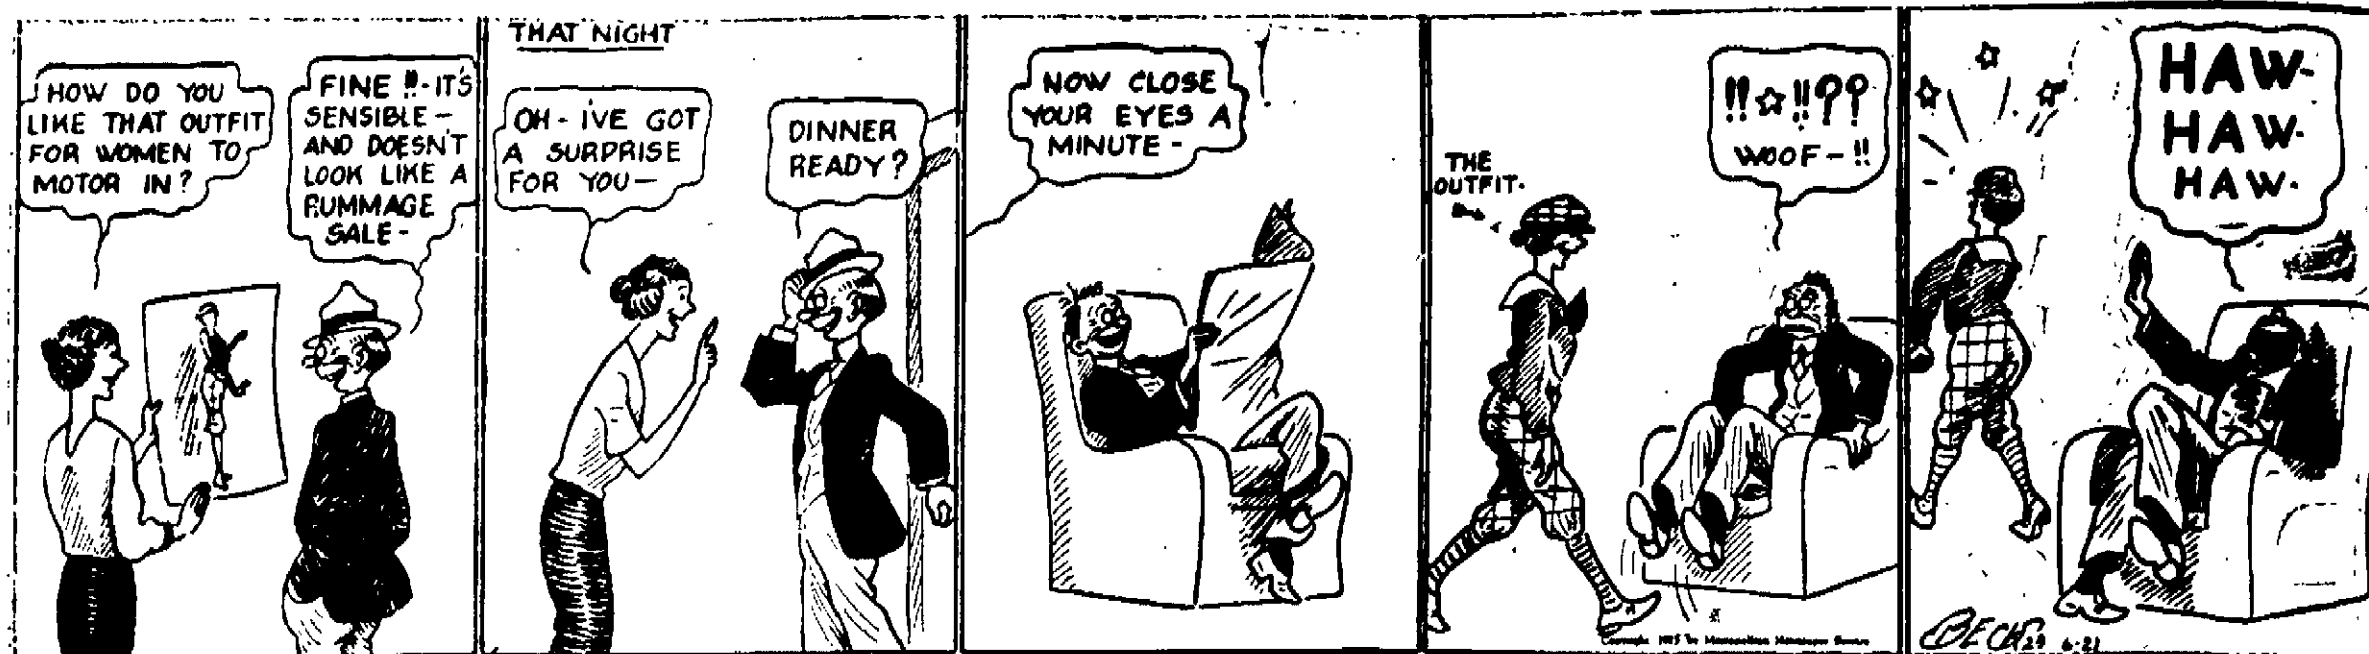

"Yes, dear I heard of it."

"And, mamma, it was only free days  
old."

"I know, love."

"But don't you think God will be  
uprised to see it coming back so  
soon?"—Boston Transcript.

## GAS BUGGIES—Did You Ever Know It to Fail

## THE KITCHEN CABINET

To know what you prefer, instead  
of humbly saying "amen" to what  
the world tells you you ought to  
prefer, is to have kept your soul  
alive.—R. L. Stevenson.

### GOOD THINGS FOR EVERYDAY

Peanut butter is a food that may  
be used in various ways. It is nice  
for sandwich fillings, good added  
to any stuffing  
used for green  
peppers or stuffed  
onions, and will  
be found an ad-  
dition to many  
dishes.

**Peanut Butter Biscuit.**—Take two  
cupfuls of flour, four teaspoonfuls  
of baking powder, one-half teaspoonful  
of salt, three tablespoonfuls of butter,  
one cupful of milk, one-half cupful of  
peanut butter and two tablespoonfuls  
of seedless raisins. Mix and roll in a  
sheet, spreading with the peanut but-  
ter and sprinkling with the raisins.  
Roll up and cut into small slices and  
bake in a hot oven fifteen minutes.

**Kentucky Pie.**—Steam six large tart  
apples and run them through a sieve;  
stir in while hot one tablespoonful of  
butter. When cool add the yolks of  
three eggs, the rind and juice of a  
lemon and one cupful of sugar which  
have been beaten together. Cover a  
deep plate with a rich pastry and fill  
with the mixture, baking in a mod-  
erate oven forty minutes.

**Apple Punch.**—Cut six tart apples  
into quarters without paring, add one  
cupful of raisins, two bay leaves, a  
small piece of stick cinnamon, the  
grated rind of three lemons and two  
quarts of cold water; let come to a  
boil and boil thirty minutes; drain  
and when cold add the juice of three  
lemons, two pounds of sugar and serve  
with ice.

**Doughnuts.**—Take two cupfuls of  
sour milk, one cupful of sour cream,  
one and three-fourths cupfuls of  
sugar, one teaspoonful of soda, two  
teaspoonfuls of baking powder, nut-  
meg to flavor and flour to roll. Chill  
well and they can be handled with  
much less flour, making a more tender  
and delicate cake.

**Raisin Candy.**—Take one and one-  
half cupfuls of sugar, one-half cupful  
of chopped raisins, one-half cupful of  
roasted almonds. Heat the sugar un-  
til a golden brown sirup, remove from  
the fire and add the raisins and nuts,  
stirring them quickly. Pour into un-  
greased pans and mark off in squares.

## Efficiency of Electric Service

According to a recent announcement the price of incandescent electric  
light bulbs is reduced one-tenth. The makers, the General Electric Company,  
say that these prices are lower than what were charged before the war, and  
state that they believe the public should have the benefit of economies effected  
in manufacturing.

Another news item from an entirely different source gives the following  
information: "If the people of this country were getting as much illumination  
today without the tungsten lamp as they are getting with it, it would cost them  
a billion dollars a year more than they are now paying."

These statements show the constantly increasing efficiency of the electric  
light service with no corresponding increase in cost. If you are using Central  
Hudson System electric current, you are entitled to good service. If you are  
not using it, let us know.

## HOOCH PRICES JUMP IN N. Y.

This Is Proof, Says Gillett, That Everhart's Charges Are Not True—Highest Prices Ever Quoted in N. Y.

By Telegraph to The Freeman.  
New York, June 21.—Hooch today hit a bull market on Broadway. Scotch, rye, even, "bottled in the barn"—was selling at a peak never before recorded on the "curb and alley" exchange.

From \$75, the case the "stuff" had jumped to \$115 at all uptown sales rooms, while the lower East Side was getting \$75 instead of the regular \$50 for "Bovary smoke."

Highballs were listed at \$1 the thimbleful on Forty Second street.

"That's proof enough that the repeal of the Mullan-Gage law has not increased bootlegging in New York," Col. R. Gillett, attorney for New York's wets, said today.

Col. Gillett sought to answer the charge of Rollin O. Everhart, Anti-Saloon League editor, that New York's Bowers was still a come-back.

"The statement of the dries that the repeal of the Mullan-Gage law has increased the liquor supply is not proved by fact," Gillett said.

"The increasing price of liquor in New York best answers the charge. When the supply is low prices go up—when much liquor is coming in, prices are down. Liquor was never as high as it is today that's enough of an answer for the dry politicians."

## COLONIALS LOSE TO RED HOOK

At The Fair Grounds Wednesday Afternoon by 8-3 Score—Perry Knocked Out in Second—Rossback in Excellent Form—Game Called With Two Out in the Ninth.

Still in the throes of a batting slump the Colonial baseball team went down to defeat at the hands of the Red Hook Regulars Wednesday afternoon by an 8-3 score.

Rossback was in the box for the Red Hook team and he had his fast one working to perfection. The local players couldn't seem to see it at all. Freddie let the local team down with five hits. Only two of these hits came in the same inning. Rossback retired eight by the strike-out and walked five.

The Colonials were held scoreless until the ninth inning when due to the one hit, two errors, and walk they managed to put three runs over the rubber.

Perry started in the box for the Colonials but he didn't seem to have his usual amount of speed and as a result in the second inning the Red Hook players found him for four hits, one of which was a home run with the bases loaded, and six runs. In this inning Short received a base on balls, Anderson hit to right field, Simmons walked, and then Rossback hit over second scoring two runs. Curtis hit just back of the pitcher, Phelps reached first on a fielder's choice and then Sammy Foster came up and put one over the left field fence scoring three ahead of him.

Rube Forsythe went into the box after this inning and pitched an admirable game. The Red Hook players only found the Rube for four hits during the seven innings which he pitched. In fact Red Hook did not score again until the ninth inning when a hit by Curtis, a free passage for Phelps and a hit by Cookingham gave the Red Hookers two more runs.

The Colonials had one or two chances to score but in the pinches Rossback was supreme. He pitched one of the finest games that any pitcher has pitched at the Fair Grounds this year. Time after time he would have two or three balls called on one of the men he was pitching to and then work the man up to two strikes and eventually strike him out.

Due to the fact that the game got started late it was called in the ninth inning with two men out by Umpire Jordan as it was so dark that the ball could hardly be discerned.

There was a representation of the D. & H. players on both teams. Scherhorn was playing first for the local team and Eddie Phelps was playing second for the Red Hookers while Rossback was pitching for Red Hook.

They may break the losing streak today.

Decorative Designs.  
Various phases of art-craft activity—the applying of ornament to a flat surface by means of printing, drawing by hand, or stenciling—come under the head of decorative design. The face painting and tattooing of barbarous tribes is a primitive form of decorative design. Painting to slip on pottery is another phase of immemorial antiquity. The paint decorations of Egyptian mummy cases, the crude patterns painted on hides by the Indians, as well as the exquisite prints and stencils produced by the Japanese, are examples of decorative design. The chief work in modern life is wall paper, of form enrichment of surface said to have been brought into Europe by the Moors.

How Soy Bean Helps Farmer.  
The soy bean can be grown successfully with corn and is becoming a very popular crop in the corn belt, as it can be hogged down and helps to balance the ration of corn. It can be grown on a wide range of soils, but irrigation is necessary when it is grown for the first time, says the United States Department of Agriculture. The hay from this crop contains a high percentage of protein and is palatable. This plant adds a great deal to the value of silage when it is grown with silage corn.

## Opinion of a Recognized Authority

In one of his "Barometer" letters early this Spring, Roger Babson, the famous statistician and financial expert, in speaking of business conditions throughout the country has this to say in the paragraph on New York:

"IN NEW YORK STATE a different set of conditions arises. Some of the upstate New Yorkers have suffered from crop difficulties. Nevertheless these sections are doing between 5 and 10% more business than a year ago. IN PARTS OF THE HUDSON RIVER VALLEY WHERE WATER POWER DEVELOPMENTS ARE LOCATED, BUSINESS IS EXCELLENT WITH THE GROWTH OF THE USE OF ELECTRICITY THESE LOCALITIES HAVE A TREMENDOUS ADVANTAGE. ALL THROUGH THE PERIOD OF GENERAL DEPRESSION THEY CONTINUED TO DO WELL. I THINK THIS STRIP OF COUNTRY REPRESENTS THE MOST PROMISING SECTION OF ANY I HAVE SEEN".

The Central Hudson Valley is served by an up-to-date system of interconnected transmission lines which furnish standardized and economic electric power to practically all of the important communities in this section. The value of this development is so well recognized that the future growth and prosperity of the Central Hudson Valley seem assured.

## GROSS SALES OF DAIRY LEAGUE

(Continued from Page One.)

this is the big problem which faces the league and should be solved during the next twelve months.

Mr. Stocum said that business men, bankers and the public generally are beginning to recognize the dairy business, not only as a profitable business, but as an institution destined to accomplish a great work in lifting farm life to a higher level than it has ever attained before.

The president pointed out that the big thing accomplished by the production department during the year was in putting the association's plants in a position where they can do their part in taking care of New York city's maximum demand for fluid milk at any time. The association was operating 111 plants on March 31 and of this number 83 were under board of health inspection, either shipping milk or ready to ship milk at a moment's notice.

He said the recent removal of the sales department and other departments from Utica to West 42nd street, New York city, was made necessary because of the increasing importance and the association's marketing activities. Over 90 percent of all sales, he explains, are made in New York city.

Mr. Stocum said that since March 5, the sales department has opened over 11,000 accounts in New York city where the association's evaporated milk has been displayed for the first time and is selling at full market price. These results were obtained in an advertising and merchandising campaign that caused a tremendous stir in the business world.

In his annual report, Albert Manning of Otisville, N. Y., master of the New York State Grange, said that on May 1, 1921, when the pooling plan went into effect, the membership was 50,840. On April 1, 1922, the beginning of the present fiscal year, there were 64,251 contracts on hand. New contracts have been received since April 1, at the rate of approximately 500 a month, he said.

Mr. Manning said there are 950 local associations, distributed as follows: New York, 721; Pennsylvania, 165; New Jersey, 42 and New England, 19. He added that never in the history of either of old League or the Cooperative Association have the records of the locals been in as good condition as they are right now.

"We feel," Mr. Manning said, "that at no time in the history of the organization has there been a better feeling toward it by the public generally than at present. We feel deeply indebted to the newspapers of the territory which have so consistently given their support and cooperation throughout the entire year."

Mr. Manning pointed out that a signal victory of the dairymen of the country was the passage of the Filled Milk bill by Congress after two years of strenuous fighting. About twenty states, he said, have passed state laws governing the manufacture and sale of this adulterated milk product.

Our great problem, "the Secretary said, "is still an educational one, not only to the public but to the milk producer, and particularly the producer who is not a member of the pool. These producers must be educated as to our policy and plans; they must be convinced that the men selected as directors and officers are the best men available and worthy of the confidence of the membership, that the men placed at the head of departments are capable and qualified for their particular line of work. In short, they must be convinced that the operations are the most efficient possible in an organization of this kind. This cannot as a rule, be done by sarcasm or offensive argument. It is most unfortunate if harsh words have been spoken which have caused ill feeling between farmers and neighbors. But the most subtle propaganda comes from those whom the farmers thought they could trust. Some propaganda has been circulated by publications distributed among farmers with the result of arraying one group of farmers against another. This condition has already cost the farmers millions and millions of dollars. It is a crime which some one should answer. Day by day producers are realizing that they have made a mistake, and they do not feel quite right about it."

H. M. Eppes of Accord, N. Y., a dairy farmer and a pooler, led the community singing which always has been a feature of league gatherings.

The old Board of Directors met yesterday at the association's office in this city and wound up their business for the year. The new board will organize Friday and elect officers and four members of the executive committee for the coming year.

### His Own Ability.

### RURAL CHURCH SERVICES TO BE HELD SUNDAY

Out-of-town church services, June 24th:

Rosendale—The service on Sunday is to be commemorative of the Lord's Supper, and will be conducted by the Rev. Edwin Hunt, of Kingston. Mr. Hunt will make an address in connection with the administration of the sacrament and it is hoped that the membership will be present. Service begins at 10:45

daylight saving time. Mt. Tremper—The Rev. J. B. Steketee will return to Mt. Tremper. Next Sunday's service at 9:30, eastern standard time. He will speak on "Ye are the salt of the earth."

Shokan—The communion service was postponed till June 24th and Mr. Steketee will be in attendance to administer the Sacrament of the Lord's Supper at that meeting. Should any desire to become members of the church or to receive baptism, they may meet the officials of the church before the service.

Flatbush—Mr. Roy of the New York Anti-Saloon League, is expected to speak on that subject at next Sunday's service. He comes well recommended as a public speaker. There is good reason to expect a candidate for this vacant charge in the near future.

High Woods and Mount Marion—Services at usual hours.

NEW COLLEGE POST  
FOR MISS BRUYN

The Springfield, Mass., Republican prints the following with a picture of Miss Bruyn, formerly of this city, telling of her appointment to an important position with Mount Holyoke College:

Miss Gertrude Bruyn of 92 School street has been appointed financial secretary of Mount Holyoke College. The office has been newly created and will have as its function the organization of funds of the college. Endowment fund drives and alumni campaigns for funds will be eliminated in the future and the work will be incorporated in the office of the financial secretary. The appointment was made at a meeting of the trustees of the college held Monday, and Miss Bruyn was notified Tuesday. Miss Bruyn is the daughter of Mrs. James V. Bruyn of 92 School street, and came to this city from Kingston, N. Y. in 1919. She was graduated from Mount Holyoke college while a resident to Kingston and studied for a year at the School of Philanthropy, New York city. Later she was engaged in social and state charities aid work in Ulster county, New York.

In 1917 she substituted in the department of economics at Mount Holyoke college. Later during the war she worked under the direction of the ordinance department and children's bureau at Washington, D. C. Since August, 1919, she has been engaged in employment management and personnel work with the American Bosch Magneto Company. She will begin her work as financial secretary in September.

Improving Thing Store.  
S. B. Thing Co., Inc., are making a number of improvements to their retail shoe store at 31 North Front street. The floor has been lowered eleven inches, new shelving will be installed, the interior redecorated and the entrance lowered and placed on a slight incline.

Secures Position.  
Miss Katherine M. Schwalbach, a graduate of Spencer's Business School, Wall and John streets, has been placed as stenographer and office assistant with the Apollo-Magneto Corporation, Grand street.

Lawn Social Tomorrow.  
A lawn social will be given by the Christian Endeavor Society of the Reformed Church of the Comforter on the church grounds on Friday evening, June 22. The public is cordially invited.

CAR HITS BIKE,  
INJURES BOY

A Ford car of Philip Reilly of Saugerties in which were his wife and two daughters, about 8 o'clock Wednesday evening struck a bicycle on which Howard Markie, a youth of Van Deusen street, was riding, at the intersection of Broadway and Elmendorf street. The boy and bicycle were dragged a short distance into Elmendorf street and the bicycle wrecked.

Young Markie was taken into the Broadway garage and Dr. O'Meara sent for and found the injury to the youth was to his hand which was dressed and bandaged. Mrs. Reilly fainted and was cared for by some women.

Police Officer Sime Wood came from police headquarters in the police auto and got the particulars and Mr. Reilly went to headquarters and reported the facts to the sergeant.

Rupert Hughes has made a daring motion picture. He pictures vividly the truth about the studios—that brilliant Hollywood colony whose follies and foibles occupy the attention of the world. Here is the untold story of stardom, the unwritten record of the life of its beautiful women and its famous men. "Souls for Sale" is the story of a brave girl who stormed the portals of the picture colony alone and unbefriended. Her narrative is stark drama, thrilling, illuminating, absorbing. Here is a picture that is real entertainment. It will reveal to you many things about motion picture life and people that you have been curious to learn.

### What You Will See

- Life in Hollywood.
- How films are made.
- Perils of studio work.
- Home life of the stars.
- A girl's fight for fame.
- The leap from a fast express.

- The circus fire that traps hundreds.
- Noon-time in Hollywood showing the greatest stars in the film world.
- And other thrills in the sensational picture.

## ALUMNI DANCE FRIDAY

AT ST. MARY'S HALL

From all appearances, the dance to be given this Friday night by the Kingston Alumni Association is to be one of the biggest ever put on. Several of the committee were at work yesterday decorating St. Mary's Hall.

Music will be furnished by Bott's Imperial Orchestra. There will be

seven pieces in the orchestra, indicating that there will be volume as well as quality. Dancing will be in form from 8:15 until 1 o'clock.

Refreshments will be served during the intermission. As soon as the refreshments have been served, all the members of the Association will meet to elect the officers for the coming year. This is the important part that all members are requested to bear in mind.

The association welcomes all

alumni and friends to this dance. A nominal entrance fee will be charged. Informal dress will be the fashion at this affair.

Dance at Binnewater.  
The usual weekly dance of the Mercury Club will be held in their new club house on Fourth Binnewater Lake, Saturday evening. Music will be furnished by Allen's orchestra of Kingston.

## Hebrew School Sisterhood.

The regular and final meeting of the Sisterhood of the Uptown Hebrew School will be held at Clermont Hall, corner Wall and John streets, this evening at 8.30 o'clock.

## Food Sale at R.G.R.'s.

Mrs. Darrow's Sunday school class will hold a food sale Saturday afternoon, June 23, from 2 to 5 o'clock at the Rose-Gorman-Rose store.

## SCHENECTADY NINE HERE TOMORROW

The strong Schenectady K. of C. will engage the Colonials at the Fair Grounds Friday afternoon at 6:30. This club holds one win over the local aggregation and the Colonials are determined to make the series even tomorrow afternoon. It is not known who will receive the pitching assignment for the Colonials.

### About the Folks

Peter M. Ahl, after spending a few days with his parents at 16 Ravine street, has returned to Port Reading, N. J.

Miss Mildred Hase of Ravine street has been presented with a piano by her parents, Mr. and Mrs. John Hase, Jr.

Mrs. Charles S. Hicks of 63 Stephan street is confined to her home with a sprained ankle and ligaments of the foot injured by a fall on Monday night.

Miss Viola Freer of No. 9 Washington avenue, who was operated upon Saturday morning at the Kingston City Hospital, by Dr. Fred Snyder, is improving nicely.

Mr. and Mrs. Thomas F. Ryan of 163 Green street are receiving congratulations upon the birth of a daughter, Dorothy Marie. Mother and child are doing nicely.

Eugene Cornwell was in Beacon on Wednesday as a delegate to the Hudson Valley Veteran Firemen's Association annual meeting from the Witwyck Hose Company in this city.

### DON'T CARRY MONEY WITH "BACCA": TOO HOT TO ARGUE

Local Resident Carried Change With Chew: Wrangle Followed.

"Say, boss, kin yer give me er chew of 'bacca?" asked a burly negro this morning, approaching one of Kingston's white residents who was standing on the corner of a downtown street.

"Sure," replied the white resident as he fished his hand into his pocket and withdrew it filled with a supply of Mullen's, long known as the "Pride of Higginsville."

"Thanks," gulped the dark complexioned one as he filled his mouth with a generous helping. As he chewed a surprised look crept over his face.

The donor of the tobacco as he stowed away the remainder of the helping looked somewhat perplexed and began to search first one pocket and then another, finally turning to the negro saying: "There was a quarter in that chew I gave you, give it back, as I need the money."

The negro at first was inclined to argue, but whether the weather was too warm or not is unknown, but anyway he donated a quarter to the other who evidently makes a habit of carrying his loose change in the same pocket with his loose tobacco.

A little later the negro after thinking the matter over returned to the scene to get the quarter back and in the argument that followed he rolled the white man on the sidewalk but at that juncture some other men came to his rescue.

The moral, if any, is it pays to keep your loose change in another pocket from that in which you carry your supply of the weed.

### YORK AND COMPANION WERE INJURED AT GLENVIEW

Weinberger Car Driven by Mr. Weinberger.

Louis York, the salesman for Armour Co. in this city, who was in the Armour Ford car Tuesday evening when it collided with the cars of Harry Netburn and Mrs. Weinberger of this city at Glenview Hill, also received a number of injuries, which were dressed by Dr. Luther Emerick of Saugerties. His companion Miss McCann, who is employed at the Twin Cakes house, Woodstock, was also injured. Dr. Emerick sewed a cut over Miss McCann's right eye, requiring four stitches. Miss McCann, according to a statement furnished the Saugerties police, was driving.

Miss Weinberger informs The Freeman that he and not Mrs. Weinberger was driving his car. He, his wife and their two children were hurt.

In the Netburn car were Mr. and Mrs. Netburn, two children and Mrs. Netburn's brother.

## GARVEY GETS 5-YEAR TERM

By Telegram to The Freeman.  
New York, June 21.—Marcus Garvey, negro, self appointed "liberator of the black race" and "president of the African republic" must serve five years in the United States penitentiary at Atlanta, Ga.

Judge Julian W. Mack imposed this sentence today after Garvey had been convicted of using the mails to defraud. He swindled hundreds of negroes out of thousands of dollars in his "liberating" schemes, the government charged.

As Garvey was sentenced some thirty or more negroes, chiefly women, ran to his side, several kissing him, while others cried against "injustice."

### LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Emil Schnering, died at Union Center, N. Y., this morning. Notice of funeral later.

George H. Keefe died suddenly Friday, June 15, at Sonoma, N. Y., in the thirty-fourth year of his age. He is survived by his mother, three brothers and five sisters. Funeral service was held in the Woodstock M. E. Church, the pastor officiating. Interment in the Woodstock cemetery.

Michael Hackett, a well known resident, died Tuesday evening at his home on Ulster avenue, Saugerties, in the 66th year of his age. Mr. Hackett had been in ill health for a long time. He leaves a wife, three daughters and five sons. Funeral services Friday morning in St. Mary's Church, Saugerties, with burial in St. Mary's Cemetery.

Mary E. Spink, wife of the late Philip Dumond, died at her home in Woodstock on Wednesday, June 20, after a lingering illness, aged 72 years. She is survived by one son, Ross, at home, and a sister, Mrs. Louise Lawson of North Arlington, N. J. Funeral services at her late home on Saturday, June 23, at 2 p. m. Interment in the Woodstock Cemetery.

After an illness of a short period, Mrs. Sarah A. Myer of Ulster avenue, Saugerties, died Wednesday morning, leaving eight children, some of them young. Mrs. Myer was in her 45th year and a daughter of Oliver Holden, who also survives her in addition to three sisters and four brothers. Funeral services Saturday afternoon in the Blue Mountain Reformed Church, the Rev. Homer L. Sheffer officiating. Burial will be in Blue Mountain Cemetery.

Frances J. widow of Jason B. Keator, died at the residence of her daughter, Mrs. Elmer Ploss, 45 Downs street, this morning. Services will be held at the residence Saturday morning at 10:30 o'clock. Daylight saving time and the funeral will be held in the M. E. Church at Roxbury that afternoon at 1 o'clock standard time. Interment in the Roxbury cemetery. Mrs. Keator is survived by three sons: Myron of Port Arthur, Texas; Myron of Tucuman, N. M.; Roscoe of Pendleton, Ore., and three daughters, Florence Hess, of Kelly's Corners; Susan K. Ploss of Kingston and Goulah Pingree of Cliftondale, Mass.

The funeral of Mrs. Jacob Schill was held from her late home 57 East Strand at 9:30 and 10 o'clock at St. Peter's Church, where a solemn Mass of requiem was offered for the repose of her soul by the Rev. John P. Neumann as celebrant, the Rev. John J. Duffy, deacon, and the Rev. Joseph D. Ostermann as sub-deacon. During the offertory Mrs. John Schwalbach rendered "Pie Jesu" and at the conclusion of the Mass John Raible sang very feelingly, "Thy Will, Not Mine, O Lord." The floral tributes from a host of sorrowing relatives and friends were many and beautiful. The casket bearers were Charles Snyder, John Meyer, Joseph F. Smith, John De Veau, William Fisher and John McInerney. Father Neumann accompanied the cortege to St. Peter's Cemetery and conducted the committal services at the grave. Interment was made in the family plot the casket resting in a concrete vault.

## THREE DROWN ESCAPING HEAT

By Telegram to The Freeman.  
Albany, June 21.—The terrible heat is indirectly responsible for the drownings of three youths in the capital district within the last 24 hours.

The boys sought relief by going in swimming.

Andrew Cavanaugh, 3, of Troy, was drowned in a reservoir. Leo Quinn, 17, went down in sight of scores of bathers at Kaydross Beach, Saratoga. George Pears, 6, of Watervliet, was drowned in the old Erie Canal.

Scores of narrow escapes from drowning have been reported in the last two days.

## FINANCIAL AND COMMERCIAL

By Telegram to The Freeman.

New York, June 21.—The stock market opened steady with most leaders advancing from a fraction to over 1 point. Liquidation was still noticeable in various issues, causing declines of a point or more.

A recovery of fair sized proportion from yesterday's panicky selling movement took place in the forenoon trading. The industrial situation was generally favorable.

The market showed some irregularity in the early afternoon but steadiness in leading issues was well maintained. Low priced railway shares were under slight pressure but soon recovered their losses.

Quotations given by C. H. Halsey & Co., 27 Williams street, New York City, branch office, Warren Building, 250-62 Fair street, Kingston, N. Y.

### NEWBURN CO'S NAP COST HIM A \$200 FINE TUESDAY

Patrolman Thomas J. Littlejohn of Newburgh on Tuesday was fined \$200 by City Manager McKay after a hearing. He was found asleep in a Morris chair in the office of the Palatine Silk Company. Officer Littlejohn in his defense said that due to the extreme heat he had experienced a dizzy spell.

### 19 Heat Deaths in Ohio.

By Telegram to The Freeman.  
Cleveland, O., June 21.—With promise of cooling breezes to temper the torrid heat today, Ohio's toll of deaths attributed to the heat wave had mounted to 19. Eight had died in Cleveland; three in Cincinnati and one each in Akron, Youngstown, Niles, Canton, Wellington, Piqua and Dayton.

### Curb Suspends Two.

By Telegram to The Freeman.  
New York, June 21.—The board of governors of the New York Curb Market today suspended A. B. Morely for one year and Benjamin Alexander as a regular member. Both suspensions were for violations of the Curb's constitution governing trading.

## REST FOR BRAIN

Proper Periods for Sleeping Are Imperative.

No Substitute for "Nature's Sweet Restorer" Has Been Found, or Is Likely to Be.

An American doctor has been trying to find a substitute for sleep.

He has calculated that we spend about one-third of our lives in more or less complete unconsciousness and that the average man of fifty-one has been asleep for seventeen years, says a specialist in an article in the Central China Post.

The idea is that this is a great waste of life, and that if one could take a pill, or a dose of medicine instead of going to bed he would really have added many years to his allotted span.

But the research for such a substitute failed, utterly and hopelessly. There is no substitute for sleep. Not one of the limitations is even "nearly as good."

It was only when the brain itself came to be studied that the real meaning of sleep was found. The brain contains vast numbers of cells, each of which is related to some part of the body, just as an electric switch is related to some lamp or bell. The whole power and strength of the body depend on the brain cells.

Up till a short time ago we knew very little about these strange structures. We were able to look at them with a microscope, and we could stain them with various dyes so that they showed up quite clearly against the rest of the brain matter.

And then one doctor, more observant than his fellows, noticed a strange thing. Sometimes the brain cells did not stain so well or so darkly as at other times. The little, vital cells were pale and indistinct instead of being clear and dark.

A great many people began to try to find out what this mysterious substance of the brain was. All kinds of strange experiments were carried out.

For example, if the brain of a hare which had been coursed was examined, the brain cells were empty of the mystery substance. The brain cells stained poorly and indistinctly.

The brains of men worn out in battle, or killed in condition of great strain, were also empty. And if a man had had no sleep for long periods, his supply of mystery substance was very low.

Gradually the knowledge came that during all efforts, both of mind and body, we use up this strange substance until at last our brain cells are empty of it. And then we can do no more. Unless we can get a new supply we perish.

It is sleep which brings the new supply. It is sleep which fills the brain cells afresh with their vital mystery substance. It is sleep which saves us from utter exhaustion, and even from death. By no other means can we make our brains fit to work again.

### Going Around the World.

The records for traveling around the globe are:  
Maxwell expedition, 1519-1522, three years; Phineas Fogg, 1872, 80 days; Nellie Bly, 1889, 72 days; George Francis Train, 1890, 67 days; Charles Fitzmorris, 1901, 60 days; Henry Frederick, 1903, 54 days; Col. Burnley Campbell, 1907, 40 days; Andre Jaeger-Schmidt, 1911, 39 days; John Henry Mears, 1913, 35 days.

Mr. Mears, the present record holder, says that he could not repeat his 1913 feat today, because the Trans-Siberian railroad is closed. That railway was the biggest factor in reducing the time for traveling around the globe. To make the journey by airplane, Mr. Mears says, would require only about twelve and a half days in actual flying time, but probably six months on account of delays "between hops."

### Music Lures to Death.

Two years ago, Chatham, Ontario, had a plague of mosquitoes so bad that fires were burned in front of many houses to drive the pests away with the smoke. A marvelous invention announced from San Francisco promises relief to many sufferers from this Canadian pest. Nathaniel Morgan of that town claims to have invented a mosquito machine which is an automatic vampire. The device consists of a motor which slides a bow back and forth across a violin string so keyed as to produce the female mosquito's mating note. A suction fan pulls in the investigating insect and deposits him on a piece of flypaper.

### Clover.

A clever new trick for airplanes is invented by an Englishman. It's a revolving platform, which moves rapidly back as the airplane starts ahead, treadmill fashion, so the plane is going fast when it manages to get off the platform. This does away with the necessity of gliding over a long field before rising. Like the ball morning rapidly but staying on the umbrella twirled in the opposite direction by the tap vaudeville actor.

It's quite possible that houses will have roofs like this later, in the day of flying flivvers.

### Real Estate Values.

"My friend, the real estate man, is very downcast after seeing Babylon, Babel and Nineveh."

"Why so?"

"Says there's been a terrible decline in values."—Louisville Courier-Journal.

### Meeting For Catholic Census.

This evening at the Knights of Columbus home a meeting of the members of the Roman Catholic churches of this city will be held for purpose of planning a census of the Catholics of this city.

## Society Notes

Little Gardens Club.  
Mrs. Julian Burroughs entertained the Little Gardens Club of Kingston at her home at West Park Wednesday afternoon.

Quick-Nugent.  
Edwin D. Quick of No. 52 Brewster street and Miss Bessie Nugent of Catherine street were united in marriage Wednesday by the Rev. J. D. Scully of St. Mary's Church. They were attended by William J. Partlan and Miss Kathryn Nugent.

Wedding Invitations.  
Invitations have been received by relatives in this city from Mr. and Mrs. F. M. Madden, New York City, to the coming marriage of their daughter, Dorothy Reynolds, to John A. Cockerill, on Tuesday, July 3, at 10:30 a. m., at the Church of Our Lady of Mercy, Fordham.

Simpkins-Byers.  
Miss Hazel Byers of this city was married today at Albany to George Wilson Simpkins of Catskill. The wedding took place in the First Presbyterian Church, the ceremony being performed by the Rev. Dr. Hopkins, the pastor. After a honeymoon spent in New York and vicinity they will make their home on Summit avenue, Catskill. Miss Byers is well known in Catskill, having taught domestic science in the Catskill High School for two years. Mr. Simpkins is one of the agents of the Catskill Prudential Insurance office.

Rose Festival at Crosspatch.  
The roses evidently got the message to hold themselves for Wednesday evening, June 20, for there was a gorgeous display of them for the Crosspatch Community Center dancing party. They came from Mrs. Cross's rose garden adjoining the community house and are all the old-fashioned hardy varieties that our grandmothers loved and the big bouquets and boutonnières were very fragrant. There was a good attendance for Crosspatch is a delightfully cool place of an evening after a hot day. Crosspatch punch and strawberry cake were popular refreshments.

Albany D. A. R. Picnic.  
Members and guests of Ten Broeck Chapter, Daughters of 1812, Albany Colony of New England Women, and the Albany Daughters of Columbia county are having a boatride picnic to Kingston Point today. Those who came by Day Boat from Albany are: Mrs. Wessel Ten Broeck, Van Orden, Mrs. James M. Gillette, Mrs. Pascoe, Mrs. Williams, Mrs. George W. Miller and guest, Mrs. George L. Rifenburgh, Mrs. Frank M. J. Wood, Miss Guinevere G. Rifenburgh, Mrs. J. D. Green, Mrs. F. M. Gill and guests, Miss Carrie Read, Miss Marjorie Taylor, Miss Dula De Vol, Mrs. William Booth Estabrook, Mrs. Howard Newton Fuller, Miss Carrie Read, Mrs. James Quigg Barcus, Mrs. Conley, Mrs. Comp, Mrs. Lemuel Holmes, 2nd, Miss M. Maude Wilson, Mrs. Nathaniel Dickinson, Mrs. Frank Crandell, Mrs. James W. Cox, Mrs. John H. Kingsbury, Mrs. John A. Howe, Mrs. W. H. H. Rogers, Miss Anna Rider, Miss Julia Brooks, Mrs. Frank M. Danaher, Mrs. W. F. Beutler, Mrs. Abel M. Smith, Mrs. George Grant Whitbeck, Miss Ivona Whitbeck, Mrs. Charles H. Trask, Miss Louise Trask, Mrs.

St. Peter's Church was the scene of a very pretty wedding Wednesday afternoon at 2 o'clock when Miss Susan C. Sweeney, daughter of Mr. and Mrs. James W. Sweeney of 21 Manhattan avenue, New York City, became the bride of William A. J. Albrecht, son of Mr. and Mrs. Frank Albrecht of 20 Staples street. The Rev. J. P. Neumann performed the ceremony which was witnessed by friends and relatives of the young couple. The bride was very charmingly gowned in white georgette crepe with white tulle hat and carried a shower bouquet of white roses and swansons. The bridesmaid, Miss Marian Roosa, was beautifully attired in Harding blue with georgette crepe, wearing a gray hat trimmed with red roses and Harding blue georgette cape. She carried a bouquet of pink roses. The best man was James Perry. The ushers were Joseph Albrecht and Fred Carr. During the ceremony Mrs. Wilcox, cousin of the groom, sang very beautifully, "O Promise Me" with Professor Schwalbach presiding at the organ. Following the ceremony the wedding party enjoyed a reception at the home of Mrs. Peter Barmann, grandmother of the bride. The newweds were the recipients of many beautiful gifts, which included checks, silver, cut glass and linen. The couple left by auto for a two weeks' honeymoon trip to Toronto, Niagara Falls and the Thousand Islands, accompanied by Mr. and Mrs. Andrews, sister and brother-in-law of the groom of Niagara Falls. They will be at home after July 8 on Furman street, Schenectady, N. Y. The numerous friends of the young couple extend congratulations and best wishes for a long and happy married life.

Many Varieties of Spiders.  
There are 300 varieties of spiders in the British Isles.

**RECEPTION TO DR. MICHAEL**

A reception to Myron J. Michael, who on Monday received the honorary degree of Doctor of Pedagogy from Tufts College, was tendered by the teachers of the Kingston High School, the teachers of the grade schools, the members of the Board of Education, and other friends, at the high school Wednesday night at 6:30.

C. W. Lewis of the high school acted as toastmaster and after the dinner he himself spoke of the great honor which had come to the Kingston school system through their superintendent receiving this honorary degree. He then called on Franklin P. Coons, principal of School No. 7, who spoke for the group of grade school principals. Eleanor C. Rosekrans, teacher at School No. 2, spoke for the grade school teachers. E. E. Fessenden, also an alumnus of Tufts and who accompanied Dr. Michael on his trip to Tufts the past week, was the next speaker. Mary E. Noone, spoke for the teachers at the high school. Harry H. Flemming, president of the Board of Education, spoke for that board. Dr. Michael then replied in a very modest and unassuming way which made an appeal to his listeners.

The committee in charge of the banquet consisted of the Misses Davis, Schnitzler, Bestle, Fuller and Cordes. Girls from the home-making department waited on the tables.

**TAGGING ALL THE BASES IN THE MAJOR LEAGUES**

Pennock, Bush and Hoyt each were knickered for a homer with men on and the Tigers evened the series with the Yanks by winning the final 9 to 7.

Elmer held the Browns to three hits and won his tenth game of the season for the Red Sox, 3 to 1.

The Athletics crept up on the Yanks by winning, 4 to 3, over the White Sox in the eleventh.

Mogridge weakened in the seventh and ninth innings, during a duel with Norton, and the Indians cleaned up the Senators 5 to 1.

Clipping the ball for five runs in the final frame, the Giants came from behind and won 7 to 5 over the Cardinals.

Dazzy Vance tried to repeat his one hit record but the Reds finally got to him and gave the Robins another setback, 4 to 1.

With the score knotted, the Braves went to bat in the ninth, scored six runs and won a 14 to 8 hurlyburly game from the Pirates. Thirty-four hits were made.

The Cubs went on a batting rampage, deluged the Phillies with hits and runs and moved into fifth place with a 16 to 1 victory.

**YALE SLIGHT FAVORITE FOR TOMORROW'S RACE**

By Telegraph to The Freeman.  
New London, Conn., June 21.—With the annual Yale-Harvard boat race only twenty-four hours away, the advance guard of the thousands of persons who will witness the struggle on the historic Thames began piling into this port today. Visitors were arriving on every train and at intervals, yachts pointed their noses into the harbor and made anchorage. Yale, reported to have made a better showing in speed tests, is a slight favorite.

**Crosspatch Afternoons.**  
On Wednesday and Sunday afternoons during the whole summer, Crosspatch House will be open to guests. On Sunday there will be hymns and a Bible lesson. On Wednesday afternoons, visitors will be served afternoon tea and may dance to the phonograph or "just set and look at the scenery." A visitors' book will be opened, as guests come from far distant states.

**CURRENT OFFERINGS AT THE THEATERS.**

At Keene's tonight. Friday and Saturday will be shown Goldwyn's newest Rupert Hughes picture, "Souls for Sale," from his novel of motion picture life in the Hollywood studios. Monday, Tuesday and Wednesday, "The White Rose." D. W. Griffith's pastoral story of the south, will have its first presentation in any theater at Keene's.

Today and tomorrow the offering at the Auditorium is Ethel Clayton in "The Remittance Woman." Thrilling adventure drama of a beautiful society girl who was captured by Chinese bandits and flung into a world of intrigue that brought her face to face with death and love.
